All salaries shall be paid in twelve equal monthly installments except as otherwise herein provided; and all employees may receive board except when otherwise stated.

When a necessity exists for additional help at any of the eleemosynary institutions, the Superintendent of the institution where such need exists, on the written approval and consent of the Board of Control, may employ such additional help, and pay for same out of any local or pay patient funds, or out of the support and maintenance appropriation, of such institution; provided that no salaries for such additional help shall be paid in a larger amount than the regular appropriated salaries for similar positions at such institution or similar institutions, and that none of said funds shall be used to supplement or increase any salaries specifically fixed by the Legislature.

No property belonging to any one of the above institutions shall be sold or disposed of without the consent of the Board of Control; and all proceeds from the sale of any such property, from labor performed, and from the sale of crops and pay patient funds, shall become a special fund to be expended under the direction and approval of the State Board of Control. The State Board of Control is hereby authorized to use out of the proceeds of said special funds, for purchase or otherwise, such amounts as may be necessary to equip each of the above institutions with radio, loud speakers, and talking picture machines, including necessary equipment, for the entertainment and diversion and therapeutic improvement of the patients and inmates, and a complete statement of all transactions shall be made in the annual report of said institutions.

The appropriations herein provided for are to be construed as the maximum sums to be appropriated to and for the several purposes named herein, and no expenditure shall be made, nor shall any obligations be incurred, which, added to the actual expenditures will exceed the amount herein appropriated for either of said purposes.

If any work be not done or the place not filled by the appointment of a person, for whom a salary is herein fixed, then such salary shall lapse and be returned to or left in the State Treasury; provided, that no person for whom any salary is herein fixed shall be allowed to draw more than the

amount of such salary from any other salary or amount herein fixed, or from fees authorized to be charged, or from any State fund or funds under the control of the governing authority of such particular institution; and provided that if any amount herein fixed for any particular purpose be not used for such purpose, in whole, or in part, the unused portion of such fixed amount shall be returned to or left in the State Treasury; provided, further, that this language shall not be construed to prevent promotion, or the transfer of one employee from the position for which employed, having affixed thereto one salary, to another position having affixed a different salary.

When, under this bill, the family of one superintendent, officer or employee of any of the said institutions, are permitted to live at said institution, and furnished with board, fuel, lights, laundry, water, housing, or furnished any of said things, the word "family" shall be construed to mean the immediate family of said superintendent, officer or employee, including himself, wife, and legally dependent children, and when any officer or employee is to be furnished with provisions not to exceed some certain amount stated, it shall be the duty of the storekeeper and accountant to charge said superintendent, officer or employee with each item of provisions as furnished him, showing the price or value thereof, and said storekeeper shall not permit the amount authorized to be exceeded, and shall make a monthly report of same to the Board of Control, and said Board of Control shall be charged with the duty of seeing that no account for such provisions exceeds the amount allowed therefor; provided the Board of Control shall authorize one of the cooks provided in the Acts to be assigned to the Superintendent's quarters.

And it shall be further provided that the heads of all said institutions hereinbefore mentioned shall keep a record of the absences of various employees and the reasons therefor, whether from sickness, vacation, or leave of absence, and that the record of such absences be incorporated in the report made annually by the head of said institution.

Provided, that all new buildings authorized by this Act, costing more than \$10.000.00 and for which appropriations are hereby made, except as otherwise provided, shall be of fire-proof construction.

The amounts appropriated in this Act are intended to cover and shall cover the entire cost of the respective items; and shall not be supplemented from any other source whatever, and no portion of the money appropriated for any particular item shall be used or expended for any other item than that for which such appropriation was made; and no salary for which an appropriation is made herein shall be paid to any person unless such person actually discharges the duties of the position for which such appropriation was made; and no portion of an appropriation for one position shall be paid to any person holding any position other than that for which such appropriation was made; and it is especially provided hereby that all contracts and undertakings entered into under and by virtue of the terms hereof, for improvements, enlargements, and repairs on buildings and grounds, and for the construction of new buildings and for furnishings and equipment of buildings, snall be made strictly within the limits and terms of the appropriations made for such purposes, and it shall be the duty of the Board of Control of the various institutions, in the consideration and adoption of plans, specifications and contracts therefor, not to exceed such appropriations nor to incur any obligations in excess thereof. It is provided, however, that the Superintendents of said institutions, under the direction and upon the written approval of the State Board of Control, shall be authorized to make such changes and substitutions within the totals appropriated for maintenance and miscellaneous items, and repairs and improvements, excepting new buildings, as may be found necessary, the total sum not to exceed the total amount appropriated for such purposes.

It is provided that none of the money herein appropriated for the State Tuberculosis Sanatorium shall be used to treat any person who has not been a resident bona fide citizen of Texas for at least three years, provided, however, that this provision shall not apply to any child born in the State of Texas.

It is further provided that the expenditure of all money herein appropriated for the maintenance and welfare of the Alabama and Coushati Indians in Polk County, shall be under the direction of the Board of Control, and that all employees, except as otherwise provided, shall be appointed by and be under the supervision of said Board of Control.

Any superintendent of any of the foregoing institutions named in this bill, for which an appropriation is made herein, or any other person charged with the duty of disbursing the funds appropriated herein, who shall knowingly violate any of the provisions of this Act shall be deemed guilty of official misconduct, which shall be, and the same is hereby made, a ground for the removal of such person from office.

Sec. 2. The fact that the above and foregoing is one of the regular appropriation bills for the support of the State Eleemosynary Institutions for the two fiscal years beginning September 1, 1931, and ending August 31, 1933, creates a necessity for the expediting of the passage of this appropriation bill, and an emergency and an imperative public necessity which demands that the Constitutional Rule requiring bills to be read on three several days be suspended, and that this bill become effective from and after its passage, and it is so enacted.

it is so enacted.

Any remaining space in said building shall be allotted by the State Board of Control for the use of the other departments of the State Government until such time as the Highway Commission may need additional space, at which time upon request of the State Highway Commission the Board of Control shall vacate the necessary space to be used by State Highway Department. Provided also that the Board of Control and the State Highway Commission shall act jointly in the planning and erection of the State Highway Building. The Board of Control shall designate and provide sufficient ground upon which to erect said building on the location now occupied by the old Travis County Jail."

"Provided, however, that the direction that the said building shall be constructed at Austin, Texas, shall not be mandatory if the Legislature before construction is begun should, by proper resolution, authorize its construction elsewhere."

Provided, that the above and foregoing amounts appropriated herein for the State Highway Department shall be paid out of the State Highway fund upon warrants issued by the State Comptroller, as provided by Chapter No. 190, General Laws, Regular Session. 1917, and amendments thereto; provided, further, that all funds or balances of funds on hand September 1, 1931, and all funds coming into the State Highway funds, and derived from registration fees or from other sources, after deducting the total of the specific appropriations herein made, are hereby appropriated to the State Highway Department for the establishment of a system of State Highways and the construction and maintenance thereof, as contemplated and set forth in Chapter No. 190, Acts of 1917, and all Acts or Amendments thereto.

There is hereby appropriated out of the State Highway funds (which amounts of such several salaries shall be charged in the proper proportion to the several construction projects under construction from time to time in the various Highway Divisions or Districts), the following amounts for each of the years of the biennium; \$75.600.00 for the salaries of Eighteen Division Engineers, none to exceed \$4,200.00 per year; and \$86,400.00 for the salaries of Thirty-six Maintenance Superintendents, none to exceed \$2,400.00 per year.

There is also hereby appropriated out of the State Highway Fund, and the Highway Commission is authorized to use sufficient funds out of the State Highway Fund to pay for equipment and all reasonable and necessary expenses, including traveling expenses, for the proper functioning of said State Highway Patrol, including the establishment and maintenance of a training school for State Highway Patrolmen, and to pay for salaries for not exceeding 120 State Highway Patrolmen, in which shall be included all license and Weight Inspectors, now authorized by law, said salaries so paid to be as follows: Chief of Division, \$3,600.00 per year; Five Captains, not exceeding \$2,100.00 per year each; Five Lieutenants, not exceeding \$2,100.00 per year each; Five Sergeants, not exceeding \$1,800.00 per year each; 104 Privates, not exceeding \$1,800.00 per year; Two stenographers, not exceeding \$1,500.00 per year each; Two typists, not exceeding \$1,200.00 per year each; Four file clerks, not exceeding \$1,200.00 per year each;

Provided that no State Highway Funds shall be used or expended in the payment of full or partial salaries, or to participate in the supplementing of any salaries for any kind of work done for, by, or under the supervision or direction of the State Highway Department, other than those amounts specifically provided in the above itemized appropriations, where the total to be paid such additional respective employee from Federal, State, County, or other funds, exceeds the respective amount below listed, to-wit: File clerks at not exceeding \$100.00 each per month; Bookkeepers at not exceeding \$150.00 each per month; Registration, warrant, voucher, comptometer or tabulating clerks, typists, stenographers, or those performing secretarial duties, at not
